IMPERIAL

CLASSIC BRITISH BATHROOMS

CLASSIC BRITISH BATHROOMS

IMPERIAL

Handcrafted perfection in the finest tradition

Precious craft skills handed down through the generations blend with the latest design ideas and manufacturing technology to create pieces of uncompromising originality and quality.

Ours is a very special partnership between passionate creators who never stop pursuing excellence and discerning homeowners who will never settle for less than the best.

Welcome to our latest Imperial collections, each one a celebration of absolute perfection.

From timbers comes great beauty

Since ancient times, people have enjoyed an emotional bond with trees. And today our love affair with wood is as strong as ever. No other material on earth matches its natural warmth and the rich variety of its grains and colours. For our collections, designers draw inspiration from responsibly managed forests around the world, while skilled woodworkers bring those ideas to glowing life with all the attention to detail you'd expect from Imperial.

15 million new UK trees planted, and counting

For every piece of Imperial Bathrooms furniture you buy, another new tree will be planted in your name.

The fine timbers featured in many of our products are always from sustainable sources. And we're also supporting the drive to establish new, thriving forests in the UK as part of a net-zero future.

That's why we're proud to partner with **Creating Tomorrow's Forests**. Their dedicated team is making Britain greener with an amazing 15 million trees planted so far, at the same time welcoming threatened wildlife species back into their natural habitats.

When you choose furniture by Imperial Bathrooms, you're playing your part in restoring the forests and woodlands that these islands have lost over the years.

You'll receive a unique certificate that not only confirms your commitment to sustainability, but also **shows exactly where your personal trees are located**. Using the GPS reference we'll provide, you can visit at any time to see how your very own piece of new British woodland is growing.

To learn more about how your Imperial Bathrooms purchase will help to make the UK greener, visit www.imperial-bathrooms.co.uk

THE COLLECTIONS *BY* IMPERIAL

So many choices – just imagine how many ways you could bring together our classic white ceramics, distinctive basin stands and luxury furniture. The bathing experience you’ve promised yourself starts here.

Carlyon Bay Collection

Bay is another elegant expression of the Carlyon Collection's character. An exquisite collection of wooden furniture to complement the fluid curves of the Carlyon basin. Available in Matt Black, Dartmouth Grey or Sea Mist finish. Closer inspection will reveal the further refinement of soft-close drawers or doors.

Carlyon Ceramic Ware

The design theme for our Carlyon Collection is set by the authentic look of the Carlyon ceramic ware. Here, the timeless appeal is gently softened by curved corners and neat styling around the basin interior.

THE ASTORIA DECO COLLECTION

The designers of the 1920s left years of wartime austerity behind them with exuberant new forms and striking colour combinations. Our Astoria Deco Collection is the perfect starting point to create your own personal evocation of the Jazz Age.

Installation Instructions for Lighting Fixtures

IP44 rated wall lamps - information and installation

Important Information Imperial recommends that a qualified electrician should install your lighting

Lamps have been manufactured with care from quality materials and when installed correctly should give many years of trouble free service. To ensure your complete safety and satisfaction, before commencing any installation please ensure that you have read and fully understood the following instructions. Remember; if you have any doubts about connection please consult a qualified electrician.

IMPORTANT: We recommend that lamps are installed by a qualified electrician in accordance with current IEE wiring and building regulations. These lamps are not suitable for outdoor use.

Resistance to moisture: These lamps have been tested and rated at IP44. When assembled & mounted correctly, they are suitable for use in Bathrooms (Zone 2 and Outside Zone). Correct orientation of the wall lamps is essential to maintain this protection rating and is shown on the label 1.058

WARNING

Switch off electricity supply at fuse box before and during installation and maintenance. We recommend that the circuit fuse or breaker is withdrawn to prevent accidental switching on whilst work is in progress. Light fittings should be protected by a maximum 6 amp fuse / miniature circuit breaker (M.C.B.)

1. Remove the stainless steel mounting plate from the back of the lamp by unscrewing the allen screw in the top edge of the lamp back plate using the allen key provided.
2. Carefully mark the position of the fixing holes for the wall mounting plate in the desired position on the wall ensuring that the plate is the correct way up and not back to front. The wall lamps are quite heavy, and the mounting plate will need to be securely screwed to the wall using suitable fixings for the particular type of wall construction where the lamp is to be installed.
3. Taking great care not to interfere with existing cables or pipework, drill the fixing holes of a suitable size for the screws or fixings you are using.
4. Pass the cables from the wall through the plastic grommet of the mounting plate, and secure the plate to the wall using the screws or other fixings you have chosen. Carefully support the wall lamp, while making the mains connection as below.
5. The wires are coded as follows:

Brown - Live (L)
Blue - Neutral (N)
Green/Yellow - Earth (E) - **THESE LAMPS MUST BE EARTHED**
6. Connect the mains wires securely to the lamp as indicated above, using only the special terminal block supplied with the lamp. To open the terminal block cover, insert a small flat bladed screwdriver

into both of the small slots on the front of the cover marked with an arrow. Pushing the screwdriver down slightly and levering gently away from the housing will release the two small catches allowing the cover to be opened. When making the connection, ensure that no bare or loose strands of wire are exposed, and that the outer sheath of the supply cable passes through the special grommet into the connector box. Do not dissemble the connections made already from the lamp to the terminal block.

7. Secure the lamp to the mounting plate from the lower edge of the back plate first, sliding the lamp slightly upward to locate the tang on the mounting plate in the slot in the back of the lamp. Once located, bring the top of the lamp backplate toward the wall and secure by tightening the allen screw in the top edge with the allen key provided. Ensure that no wires are trapped when tightening the allen screw.

WATTAGE

Never exceed the maximum wattage as indicated on the bulb holders.

BULB REPLACEMENT

This differs between models: - Follow the directions below for only the model in use. In all cases, switch off the lamp and allow the bulb to cool prior to commencing.

Carlyon Single and Double, Radcliffe Single and Double, Toledo Single and Double: Unscrew the glass shade and replace the bulb with the same type as marked on the bulb holder.

Brokton and Pendant: - Shade and Bulb replacement. Unscrew the domed glass bulb cover complete with shade ring. (This is quite stiff due to its rubber sealing gland). Unscrew and remove the bulb. You can now fit the shade of your choice. With the shade seated on the bulb holder, screw in a new E14 screw cap tube shaped bulb of up to 40 watts maximum. Finally screw the glass bulb cover and shade ring back on to the lamp as a unit (it can easily be re-seated if they have come apart in disassembly).

Cadiz and Avila: Carefully remove the domed frosted glass bulb cover (this is a pull/push fit over the rubber seals at the base of the bulb holder). Unscrew the glass shade if greater access is required and pull out the old bulb. Replace the bulb with a G9 mains voltage halogen bulb of 40 watts maximum taking care not to let the bulb have direct contact with your fingers. Screw the glass shade back on to the lamp and finally push home the domed frosted glass bulb cover ensuring it is over the seals at the bottom of the bulb holder.

CARE OF THIS PRODUCT

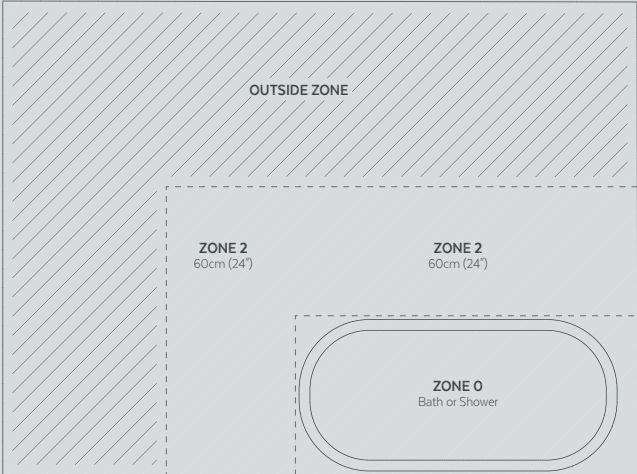

Clean only with a dry soft duster. Do not use any proprietary cleaners and polishes, which may have a detrimental effect on the finish.

Complaints made following installation cannot be accepted.

Lighting zones

Getting it right

Bathrooms need to operate on both a practical and sensory level to tackle the morning rush and evening unwind. Imperial lighting ranges are designed to perform as both task and mood lighting, offering the perfect lighting conditions for bathrooms as well as other rooms in the house.

Customer Care and Guarantees

Purchasing, installing and caring for your Imperial bathroom

ENGLISH

Guarantees and Customer Care, Terms and Conditions

SALES ORDERS

All orders must be faxed to Imperial (+44 1922 743180) or sent by e-mail (UK) sales@imperial-bathrooms.co.uk. All export orders to export@imperial-bathrooms.co.uk. Unfortunately we are unable to accept verbal orders. The Buyer must acknowledge that he is aware of Imperial's Selling Terms and Conditions when placing the order. Cancelled Orders must be done in writing (by fax or e mail) to the sales office. If the order has been shipped or has been delivered, then there will be a 30% re-stocking fee applicable.

DELIVERY

Subject to stock availability, we would expect to ship the goods from our warehouse within 5 working days. If we are unable to ship the order complete, then we will ship the goods as soon as all item are available. The Sales office will keep you informed of your order status, and if you have any questions then please call the sales office on +44 1922 743074.

If a delivery has missing or damaged items, then you must inform in writing the sales office within 3 working days of receiving the goods (by fax or e mail). Failure to declare this within this timescale will make the claim void.

RETURNS

No goods can be returned to Imperial without authorization. Please inform the sales office of any returns, and obtain a Return Material Authorisation Number. Imperial will then contact you to make arrangements to have the goods returned.

TERMS & CONDITIONS

Please contact the Sales office for a set of our Terms and Conditions. These terms and conditions are governed by the laws of England and Wales and each party submits to the jurisdiction of the English Courts.

Other Conditions are as laid out by the Selling Contract & letter of introduction by Imperial

INSTALLATION & TECHNICAL SPECS

We recommend that all products are purchased with the assistance of a specialist bathroom retailer and always installed by an experienced installer who is a member of a recognised plumbing association. A list of bathroom retailers is available from our sales office and many retailers who display the Imperial product ranges can offer a complete design and installation service. Imperial Bathrooms Sanitaryware products are produced to the most demanding standards and each piece can be subject to as many as 15 individual quality control checks during production. Notwithstanding the high quality finishes achieved in the Imperial factory, all Sanitaryware is subject to the limitations of the ceramic manufacturing process. Unlike machine finished products, natural clay based products shrink and move during firing and, because it is not possible to control this process absolutely, minor variations in the dimensional stability of finished products will occur. In most instances this is not noticeable and will have no significant effect upon the installation or upon the look of the finished bathroom, but in any event these variations are normal and to be expected.

For further Technical Information and Dimensions please go to www.imperialtechspec.com or contact the sales office on +44 1922 743074

All products should be inspected before installation.

(i) **Sizes** all sizes quoted in this brochure are nominal. Actual ceramic sizes may vary by + or - 2% against the figures quoted in our technical data. When planning installations where dimensions are critical it is essential that the space allowed for individual items is physically checked with the products to be installed.

(ii) **Wood Finishes** - All natural wood finishes mature with age and Colours may vary slightly from batch to batch or from panel to panel. It is therefore not always possible to achieve a precise colour match when additional items are added at a later date.

(iii) **Vitreous China** These are extremely hard, non-porous products; but are also brittle and therefore must not be put under stress during installation. Basin waste fittings when over tightened can create stress within the ceramic material which may in time cause the failure of the product. Waste fittings should be carefully bedded in silicon and the back nut hand tightened. One additional quarter turn using a suitable spanner is sufficient to create the required watertight seal. Care should also be taken when fitting brassware in order to prevent similar stress related failures.

(iv) **Cistern Flushing** - All Imperial Bathrooms WC pans and cisterns flush at 6 litres in compliance with European EN Standards

(v) **Acrylic Baths** - Acrylic bath sizes are nominal the final size often depending on the degree of detail incorporated in the design. All baths should be carefully inspected before installation.

(vi) **Gold & Nickel plating** all items supplied in Antique Gold or Nickel finish have been plated in the UK and the plating complies with British and European Standards relating to the products concerned. These special order items can not be returned to Imperial

(vii) **Furniture** - Imperial Bathrooms furniture is produced from a combination of solid wood and wood veneer panels, and all sizes quoted are nominal and must be checked against actual product. The timber used is supplied from renewable sources and whilst every care is taken in the manufacture of wooden products inevitably there will always be variation in both colour and grain pattern between individual pieces - indeed this is part of the beauty and unique appeal of using a natural material. Where frosted glass is a feature, only toughened safety glass is used.

(viii) **Cast Iron Baths** - During manufacture a thick coat of powder enamel is fused onto the internal surface of the red hot cast iron. This long established process can however produce ripples, small dimples and specks on the surface which are indeed part of the character and appeal of this type of product and it is normal and to be expected - the performance of the bath is however not affected.

(ix) **Bar Pressures** - The recommended operating pressure for taps, mixers and shower valves is from 0.3 Bar to 5 Bar. If the pressure is higher, a pressure reducing valve should be incorporated within the system.

(x) **Tiles** your tiles have been manufactured to simulate the look, (size, shape, colour, thickness, tone of glaze) of a hand made tile and, as such, are all different in appearance from each other. In order to obtain the best blend, we recommend taking tiles from a number of boxes on application. To obtain the best appearance, we recommend a 3mm grout line. Use only waterproof adhesives and grouts. For Further Technical Data and for further installation instructions on the Tiles please contact the sales office on +44 1922 743074

(xi) **Basin stands** are produced by hand and slight imperfections on the surface detail are normal due to the material and the manufacturing process.

(xii) **The Hardwick glass legs** are manufactured from Borosilicate 3.3 glass, 30mm diameter - Not toughened

LOOKING AFTER YOUR BATHROOM

Sanitaryware -The glazed finish of your Sanitaryware should be cleaned after use by applying a little cream-type cleaner. Apply using a sponge or damp cloth and rinse thoroughly with clean water. Cleaners containing abrasive materials should be avoided.

Antique Gold, Chrome or Nickel plated brassware and taps should be cleaned with warm soapy water and dried with a soft cloth. Under no circumstances should bleach or abrasive cleaning products, polishes, or detergent be used on plated surfaces and in particular should these materials be used on Nickel or Gold plated items it is possible that the surface will be damaged.

Acrylic baths should be cleaned using similar non abrasive cleaners.

Bathroom vanity furniture, Seats and Bath Panels can be wiped over with a damp cloth and dried with a soft duster. The use of polishes containing silicon or any abrasive materials can damage the wood finish. Natural wax polishes should be used sparingly and applied using a soft dry cloth.

Stone / Marble - To assist you in use, each piece of stone/marble has already been pre-sealed but will require regular maintenance with appropriate care and sealant products. We have used a special impregnation which optimally protects absorbent, stain-sensitive natural stone surfaces. It largely prevents the penetration of oil, greases, and water and makes further maintenance easier. Using the right ongoing care products will facilitate the cleaning process and will maintain a fresher appearance of your stone surfaces. We recommend that you re-treat your purchase on a quarterly or six-monthly basis dependant upon use.

Tiles should be cleaned by washing with warm water to which a neutral, clear, low sulphate detergent has been added. After cleaning, rinse well with clean water and polish with a clean soft dry cloth.

MANUFACTURING POLICY

1. The policy of the IBC Products Ltd is one of continuous improvement. We therefore reserve the right to alter or amend specifications/dimensions and prices without notice and to withdraw specific items/Colours without notice.

2. Colour reproduction in this brochure is as accurate as the variables in photographic and printing process will allow and specific colours may vary from actual products.

3. Great care is taken to ensure that products supplied by The IBC Products Ltd are supplied to you in perfect condition. Your purchases should, however, be checked for manufacturing defect (or damage) before any installation work is carried out. We are unable to accept responsibility for any defect which was evident before or has occurred as a result of installation.

GUARANTEES

1. Sanitaryware and consoles supplied by IBC Products Ltd carry a Ten Year guarantee against failure caused by manufacturing defect.

2. Imperial taps, mixers, Accessories, Shower Valves are guaranteed against manufacturing defects for One Year, this excludes plated surfaces and replaceable parts which are subject to normal use i.e. washers.

3. Imperial Bathrooms vanity furniture is guaranteed against manufacturing defects for a period of Two Years from installation.

4. All Imperial Bathrooms baths carry a 5 years guarantee against manufacturing defects.

5. All stone, marble and composite work top products carry a Two Year guarantee against manufacturing defects and does not guarantee against staining / discolouration.

6. Radiators carry a 2 year guarantee against manufacturing defects excluding plated finishes or electric heating elements.

MAKING A CLAIM UNDER WARRANTEE

To make a claim under the guarantee the following conditions must be met:

1. Proof of purchase should be supplied at the time of the claim.

2. Product should have been fitted in accordance with our fixing instructions, EN Standards and general good plumbing practice.

3. We need to ensure that the product has been maintained and cared for in accordance with our Care Instructions. We cannot accept responsibility for the failure of a product if it has been modified, misused, neglected or willfully or accidentally damaged. It should have been used for its sole design purpose

4. We must be given reasonable opportunity to inspect the product in the installed situation. If removed the product should be retained for inspection.

5. Our policy is one of continuous improvement. If the product has failed under the terms of the guarantee and a replacement is offered, but identical goods are no longer available, we will replace with the nearest equivalent.

6. This guarantee applies only to the single product in question and not to the whole bathroom suite.

7. We will not bear costs for repairs or replacements where the product fault is due to the following: Accidental or malicious damage, Improper use, Negligence, General wear and tear, Damage due to poor installation or, servicing or consequential loss, Where modifications have been made to the product, Where the product has not been used for its sole purpose, Inappropriate use.

8. These terms and conditions are governed by the laws of England and Wales and each party submits to the jurisdiction of the English Courts.

9. To the extent permitted by applicable law, other than the express warranty set forth in these terms and conditions, we (or any other third-party supplier) make no additional warranties, expressed or implied, and disclaim all implied warranties, whether in fact or by operation of law, statutory or otherwise, including warranties or conditions of merchantability and fitness for particular purpose. Any warranties that may not be disclaimed under applicable law are limited in duration to the warranty period. No warranties, expressed or implied, will apply after this period. In no way will we (or any third party supplier) be liable for any special, indirect, incidental or consequential damages, losses costs of expenses, however arising, whether in contract or tort, including without restriction, any economic losses of any kind, any loss or damage to property, any labour costs of refitting the product, any personal injury, any damage or injury arising from or as a result of misuse or abuse, or the incorrect installation, integration or operation of the product. We neither assume nor authorize any other person to accept any liability in connection with repair or replacement of the product. And we limit any claim to the value of replacement goods only and not any consequential charges (such as plumbing Costs).

10. Warranty is not transferable and applies only to the original purchaser / retailer.

Garanties, Services Client et conditions de vente

COMMANDES

Toutes les commandes doivent être envoyées par télécopieur à Imperial (+44 19 22 74 31 80) ou par e-mail export@imperial-bathrooms.co.uk. Nous regrettons de ne pouvoir accepter les commandes verbales. Au moment de passer la commande, l'Acheteur doit convenir qu'il est informé des conditions de vente d'Imperial. L'annulation des commandes doit être faite par écrit (par télécopieur ou par e-mail) et transmise au bureau de vente. Si la commande a été expédiée ou livrée, il sera appliqué 30% pour frais de restockage.

LIVRAISON

Sous réserve de disponibilité des stocks, nous anticipons d'expédier les marchandises de notre dépôt dans les 5 jours ouvrables. Si nous ne sommes pas en mesure d'expédier la commande intégrale, nous expédierons les marchandises dès que tous les articles seront disponibles. Le bureau de vente vous tiendra au courant des progrès de votre commande. Pour toutes questions complémentaires, veuillez appeler le bureau de vente au n° +44 19 22 74 30 74. S'il y a des articles manquants ou endommagés dans la livraison, vous devez informer le bureau de vente dans les 3 jours ouvrables qui suivent la réception des marchandises (par télécopieur ou par e-mail). Si cela n'est pas déclaré dans le délai requis, la réclamation sera nulle et non avenue.

RETOURS

Aucun article ne peut être retourné à Imperial sans autorisation. Veuillez informer le bureau de vente de tout retour, et obtenir un numéro d'autorisation de retour d'article. Imperial vous contactera afin de prendre les dispositions requises pour le retour des articles.

CONDITIONS DE VENTE

Pour obtenir une documentation de nos Conditions de vente, veuillez contacter le bureau de vente. Ces conditions de vente sont régies par les législations de l'Angleterre et du Pays de Galles, et chaque partie doit se soumettre à la juridiction des tribunaux anglais.

D'autres conditions sont stipulées dans le contrat et de vente et la lettre de présentation d'Imperial

INSTALLATION ET CARACTÉRISTIQUES TECHNIQUES

Nous recommandons que tous les produits soient achetés en faisant appel à l'assistance d'un revendeur spécialisé dans les articles pour salles de bains, et qu'ils soient toujours installés par un installateur chevronné faisant partie d'une association de plombiers réputée. Pour obtenir une liste des revendeurs de salles de bains, prière de vous adresser à notre bureau de vente ; de nombreux revendeurs qui présentent les gammes de produits Imperial sont en mesure de proposer un service complet d'étude et d'installation. Les produits sanitaires pour salles de bains Imperial sont fabriqués selon les normes les plus rigoureuses, et chaque article fait l'objet de quinze contrôles de qualité individuels pendant la production. Exception faite des finitions de haute qualité réalisées par l'usine Imperial, tous les articles sanitaires sont soumis aux limitations du procédé de fabrication de la céramique. Contrairement aux produits finis machine, les produits fabriqués à base d'argile naturelle se rétractent et se déforment pendant la cuisson, et comme il n'est pas possible de complètement maîtriser ce processus, des variations mineures peuvent apparaître dans la stabilité dimensionnelle des produits finis. Dans la plupart des cas, ceci n'est pas apparent et n'aura aucune conséquence importante lors de l'installation, ou dans l'esthétique de la salle de bains finie, mais en tous cas, ces variations sont normales et peuvent être anticipées.

Pour tous renseignements techniques complémentaires et tous renseignements sur les dimensions, veuillez consulter www.imperialtechspec.com ou contactez le bureau de vente au n° +44 19 22 74 30 74

Il faut inspecter tous les produits avant l'installation.

(i) Dimensions: Toutes les dimensions indiquées dans cette brochure sont nominales. La taille réelle de la céramique présente des variations de + ou - 2% par rapport aux chiffres indiqués dans nos caractéristiques

techniques. Pour préparer une installation où les

dimensions sont critiques, il est essentiel de contrôler physiquement l'espace prévu pour chaque article et de le comparer avec les produits à installer.

(ii) Finitions bois: Toutes les finitions en bois naturel s'affinent en vieillissant et les couleurs peuvent légèrement varier d'un lot à l'autre ou d'un panneau à l'autre. Par conséquent, il n'est pas toujours possible d'obtenir une correspondance précise des coloris lorsque des articles supplémentaires sont ajoutés ultérieurement.

(iii) Porcelaine: Les produits en porcelaine vitrifiée sont extrêmement durs et non poreux, mais également fragiles. Par conséquent, ils ne doivent pas être soumis à des contraintes au cours de l'installation. Si la robinetterie pour lave-mains est trop serrée, cela risque de créer des contraintes dans le matériau en céramique et éventuellement, la défaillance du produit. Les bandes doivent être soigneusement posées dans du silicone, et le contre-écrou doit être serré à la main. Il suffit de le tourner d'un quart de tour supplémentaire avec une clé appropriée pour créer l'étanchéisation requise. Agir également avec précaution pour poser la robinetterie en laiton afin d'éviter toutes défaillances liées aux contraintes.

(iv) Chasses d'eau: Toutes les cuvettes WC et tous les réservoirs de chasse Imperial Bathrooms évacuent 6 litres d'eau en conformité aux normes EN européennes.

(v) Baignoires acryliques: Les dimensions des baignoires acryliques sont nominales. La taille finale dépend souvent du galbe et des finitions incorporés dans le modèle. Il faut soigneusement examiner toutes les baignoires avant l'installation.

(vi) Placage doré ou nickelé: Tous les articles fournis en finition dorée Antique Gold ou nickelée sont placés en Grande-Bretagne et le placage est conforme aux normes britanniques et européennes relatives aux produits en question. Ces articles sur commande spéciale ne peuvent pas être retournés à Imperial.

(vii) Meubles: Les meubles Imperial Bathrooms sont fabriqués dans un ensemble de bois massif et de panneaux bois contreplaqués. Toutes les dimensions mentionnées sont nominales et doivent être vérifiées par rapport au produit réel. Le bois utilisé provient de sources renouvelables et bien que toutes les précautions aient été prises dans la fabrication des produits en bois, il y aura inévitablement des variations de la couleur et du grain du bois d'un article à l'autre ; en fait, ces variations font parties de la beauté du produit et l'esthétique exclusif d'un matériau naturel. Si du verre dépoli est incorporé, on n'utilise que du verre de sécurité trempé.

(viii) Baignoires en fonte: Au cours de la fabrication, une couche épaisse d'émail au poudré est fondue sur la surface interne de la fonte chauffée au rouge. Mais ce processus établi de longue date peut produire des rides, des petites dépressions et des mouchetures à la surface, qui font en fait partie du caractère et de l'attraction de ce type de produit. Ceci est normal et prévu, et n'altère pas la performance de la baignoire.

(ix) Pressions en bars: La pression de service recommandée pour les robinets, mélangeurs et mitigeurs de douche varie de 0,3 à 5 bars. Si la pression est supérieure, il faudra incorporer un détendeur de pression dans le système.

(x) Carrelage: Vos carreaux ont été fabriqués pour simuler l'aspect (dimensions, forme, couleur, épaisseur, ton du vernissage) d'un carreau fait main et à ce titre, ils présentent tous un aspect différent les uns des autres. Afin d'obtenir un nuancier harmonieux, nous recommandons de prendre des carreaux provenant de plusieurs cartons différents pour votre application. Nous recommandons un joint de 3 mm pour donner la meilleure présentation esthétique. Utiliser uniquement des adhésifs et des joints imperméables. Pour toutes caractéristiques techniques complémentaires, et pour des instructions complètes pour l'installation des carrelages, veuillez contacter le bureau de vente au n° +44 19 22 74 30 74.

ENTRETIEN DE VOTRE SALLE DE BAINS

Sanitaires: Pour nettoyer la finition émaillée de vos sanitaires après usage, appliquer un peu de produit de nettoyage de type crème. L'appliquer avec une éponge

ou un chiffon humide, puis rincer soigneusement à l'eau du robinet. Éviter les produits de nettoyage contenant des matériaux abrasifs.

Robinetterie et accessoires dorés Antique Gold, chromés ou nickelés: Les nettoyer à l'eau chaude savonneuse, puis les sécher avec un chiffon doux. Il ne faut en aucun cas utiliser de javel ou de produits de nettoyage abrasifs, de polish ni de détergent sur les surfaces plaquées. À noter que si ces produits sont utilisés sur des articles nickelés ou dorés, la surface risque d'être endommagée.

Baignoires acryliques: Nettoyer ces baignoires avec des produits de nettoyage non abrasifs similaires.

Meubles sous vasque pour salles de bains, sièges et panneaux de baignoires: On peut les essuyer avec un chiffon humide, puis les sécher avec un chiffon sec doux. L'utilisation de polish contenant du silicone ou des matériaux abrasifs risque d'abîmer la finition du bois. Utiliser en très petite quantité les polish à cire naturelle avec un chiffon doux et sec.

Pierre / Marbre: Pour vous aider à les utiliser, chaque dalle de pierre / marbre est déjà pré-étanchéisée, mais il faut les entretenir à intervalles réguliers en prenant les précautions et en utilisant des produits d'étanchéisation appropriés. Nous avons utilisé un produit d'impregnation spécial qui protège les surfaces en pierre naturelle absorbantes et sensibles aux taches de manière optimale. Il empêche essentiellement l'huile, les graisses et l'eau d'y pénétrer, et facilite toutes les autres opérations d'entretien. L'utilisation de produits d'entretien modernes et appropriés facilitera le processus de nettoyage et permettra aux surfaces en pierre de conserver un bel aspect plus frais. Nous recommandons de refaire le conditionnement de l'article acheté tous les trois mois ou tous les six mois selon l'intensité d'usage.

Carrelages: Pour nettoyer les carreaux, les laver à l'eau chaude dans laquelle on aura ajouté un détergent neutre, transparent et à faible teneur en sulfate. Après le nettoyage, bien les rincer à l'eau propre, puis les faire briller avec un chiffon propre, doux et sec.

POLITIQUE DE FABRICATION

1. La politique de The IBC Products Ltd est de poursuivre le perfectionnement continu de nos produits. Nous nous réservons le droit de modifier ou changer les caractéristiques / dimensions et prix sans préavis, et de retirer des articles / couleurs spécifiques sans préavis.

2. Dans cette brochure, la reproduction des couleurs est aussi exacte que le permettent les paramètres du processus de la photographie et de l'impression.

3. The IBC Products Ltd prend toutes les précautions pour s'assurer que les produits qu'elle vous fournit sont en parfait état. Toutefois, il faut contrôler les produits achetés afin de rechercher tout vice (ou dommage) de fabrication avant d'effectuer les travaux d'installation. Nous déclinons toute responsabilité pour tout défaut qui était visible avant ou s'est produit à la suite de l'installation.

GARANTIES (EXPORTATIONS)

1. La porcelaine vitrifiée fabriquée par The IBC Products Ltd est garantie vingt-cinq ans contre toute défaillance causée par un vice de fabrication.

2. Les robinets, mélangeurs, accessoires et mitigeurs de douche sont garantis un an contre tout vice de fabrication. Cette garantie exclut les surfaces plaquées et les pièces remplaçables qui sont soumises à un usage normal (ex. rondelles).

3. Les meubles pour salles de bains Imperial Bathrooms sont garantis un an contre tout vice de fabrication à partir de leur installation.

4. Toutes les baignoires Imperial Bathrooms sont garanties 5 ans contre tout vice de fabrication.

5. Tous les composants incorporés dans les systèmes de baignoires bainéo Hydro Jet Whirlpool sont garantis un an.

6. Tous les produits en pierre ou en marbre sont garantis un an contre tout vice de fabrication, mais ne sont pas garantis contre les taches / la décoloration.

7. Les carrelages sont garantis un an contre tout vice de fabrication, mais ne sont pas garantis contre les taches / la décoloration.

8. Les radiateurs ont une garantie de 2 ans pour tous problèmes de fabrication. Cela exclut tout problèmes de finitions, de plaquages et de système électrique.

RECLAMATIONS AUX TERMES DE LA GARANTIE IMPERIAL

Pour faire une réclamation aux termes de la garantie, il faut satisfaire aux conditions suivantes:

1. Accompanyer la réclamation d'un justificatif d'achat.
2. Le produit doit avoir été installé conformément à nos instructions de fixation, aux normes EN et aux bonnes pratiques générales de plomberie.
3. Nous devons nous assurer que le produit a été entretenu et maintenu conformément à nos instructions d'entretien. Nous déclinons toute responsabilité pour la défaillance d'un produit si celui-ci a été modifié, a subi un usage négligent ou abusif ou a été délibérément ou accidentellement endommagé. Il doit avoir été utilisé uniquement dans le but pour lequel il est conçu.
4. Nous devons pouvoir bénéficier de toute possibilité raisonnable d'inspecter le produit dans la situation où il est installé. Si le produit est retiré, il faut le conserver pour l'inspection.
5. Notre politique est de poursuivre le perfectionnement continu de nos produits. Si un produit est défaillant aux termes de la garantie et qu'un remplacement soit proposé, mais que des articles identiques ne soient plus disponibles, nous le remplacerons par l'article équivalent le plus proche.
6. Cette garantie ne s'applique qu'au seul produit en question, et non pas à l'ensemble de la salle de bains.
7. Nous ne supporterons pas les coûts des réparations ni des remplacements si le défaut du produit est dû à l'un des cas suivants : dommage accidentel ou malveillant, usage abusive, négligence, usage générale, dommage dû à une mauvaise installation ou mauvais entretien, ou toute perte conséquente, si des modifications du produit ont été faites, si le produit n'a pas été utilisé uniquement dans le but pour lequel il est conçu, usage inapproprié.
8. Ces conditions sont régies par la législation de l'Angleterre et du Pays de Galles, et chaque partie accepte de se soumettre à la juridiction des tribunaux anglais.
9. Dans la mesure où cela est permis par la législation applicable, autre que la garantie explicite stipulée dans les présentes conditions, nous (ou tout autre fournisseur tiers) ne faisons aucune garantie supplémentaire, explicite ou implicite, et rejetons toutes les garanties implicites, que ce soit en fait ou par l'exécution de la loi, des règlements ou autres, y compris les garanties ou conditions de qualité marchande ou de l'adéquation à un but particulier. Toutes les garanties qui ne peuvent pas être rejetées aux termes de la législation applicable sont limitées dans la durée à la période de garantie. Aucune garantie, explicite ou implicite, ne sera appliquée après cette période. Nous (ou tout autre fournisseur tiers) ne serons en aucun cas responsables de tous dommages spéciaux, indirects, secondaires ou conséquents, pertes, coûts ou dépenses, quelle que soit la manière dont ils sont survenus, que ce soit de nature contractuelle ou délictuelle, y compris et sans réserves, toutes pertes économiques de toutes sortes, toutes pertes ou tout dommage de la propriété, tous frais de main-d'œuvre pour la repose du produit, toutes blessures, tout dommage ou toutes blessures découlant ou résultant d'un usage négligent ou abusif, ou de l'installation, l'intégration ou du fonctionnement incorrect(e) du produit. Nous n'assumons ni n'autorisons de tiers à assumer de responsabilité en rapport avec la réparation ou le remplacement du produit, et nous limitons toute réclamation à la valeur des marchandises de remplacement et non pas aux frais conséquents (comme par exemple, les frais de plomberie
10. La garantie n'est pas transférable et s'applique uniquement à l'acheteur / au revendeur original.
