All models, standard and custom, include individual packaging and accessories.
A minimum drainage slope 1% (maximum slope of 4%) is ensured in all designs.
Anti-slip sandblasting surface treatment on Silestone shower trays means that the dark colours become lighter and the N-Boost treatment is lost in the patterns (in the case of Exelis, over its entire surface). For this reason, Cosentino does not recommend black colours, those coarse-grained or with high crystal content (Stellar White or Stellar Black)
⁽¹⁾ Size only available in colours with Jumbo slab: max. width 120cm, max. length 300cm.

Wakka

Made in one piece, without vertical joints. Its single slope makes it functional and easy to fit into the bathroom floor, providing a simple, practical and elegant design.

Dimensions

Length From 70 to 250cm ⁽¹⁾
Width From 70 to 150cm ⁽¹⁾

Arnolds additions

The assortment extends beyond washbasins and shower trays: Silestone or Dekton can cover nearly any surface. Here are several product ideas to enhance any bathroom: vanity tops for surface-mounted, under-mounted, or semi-recessed basins, window sills, niches, bath boxes, perimeters, and even shelves. These can be tailored to complement or contrast with your washbasin and shower tray, available in various colours across the Silestone and Dekton collections.
